Sheep Ireland EuroStars

How to select a ram fit for purpose?

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

€uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals can not be compared to any other animals from a different flock.

Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

Acc % (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example on previous page)

Acc % parameters

V.Poor, 0% - 14% **Poor**, 15% - 24%

Fair, 25% - 34% **Good**, 35% - 49%

V.Good, 50% and above

Indexes & Traits

- 1) **Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) **Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) **Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) **Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) **No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) **Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

RAM FERTILITY GUARANTEE

- 17.1** All rams and ram lambs sold at a Society sale are warranted by the seller to be capable of natural and effective service by four calendar months from date of sale ("the Male Guarantee Period") provided always that:
- 17.1.1** any animal which is not so capable and where the incapacity is caused or contributed to by injury or illness howsoever caused, suffered or contracted after the sale is not covered by the warranty; and
- 17.1.2** any animal which has not been conclusively determined as incapable of natural and effective service in accordance with the procedure set out hereinafter and which dies of natural causes during the Male Guarantee Period is not covered by the warranty.
- 17.1.3** there has been no exchange of money, or payment in kind or any type, between the seller and buyer other than those set out in Bye-Laws 16.20 and 16.21.
- 17.2** An animal shall be deemed incapable of natural and effective service if:
- 17.2.1** It fails to make at least one ewe pregnant during the Male Guarantee Period under natural breeding conditions; and
- 17.2.2** it is certified as being so incapable by a veterinary surgeon in accordance with clauses 17.4 and 17.5 below. "Natural breeding conditions" means when a ram is run with ewes in normal breeding condition, cycling without artificial interference. Ewes which have been sponged and/or treated with hormones to induce or synchronise ovulation are deemed not to be in normal breeding condition.
- 17.3** The buyer shall throughout the Male Guarantee Period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service and maintain him in a fit condition.
- 17.4** If the buyer highlights that the ram or ram lamb has failed to prove capable of natural and effective service by 2 calendar months from sale date of the year of sale, the buyer shall then:
- 17.4.1** Notify the seller and the Society in writing that the animal is to be tested; and
- 17.4.2** Have the animal subjected to a semen test by the artificial vagina method by a veterinary surgeon attached to a breeding company authorised by the Society; and
- 17.4.3** Obtain from the veterinary surgeon a duly completed Soundness for Breeding report; and
- 17.4.4** If the veterinary surgeon certifies that the animal is incapable of natural and effective service, lodge a copy of the Report with the seller and the Society.
- 17.5** The seller shall be entitled to:
- 17.5.1** Have a second test carried out by the same or a different veterinary surgeon attached to a breeding company authorised by the Society who shall issue a Soundness for Breeding report after notification by the purchaser and such Report shall conclusively determine whether or not the animal is capable of natural and effective service. The seller shall deliver to the buyer and the Society a copy of this second Report: or
- 17.5.2** Arrange to take possession of the ram or ram lamb for up to two calendar months from the date of the duly completed Soundness for Breeding Report provided by the Buyer to determine whether or not the animal is capable of natural and effective service. If the ram or ram lamb makes at least one ewe pregnant during the Male Guarantee Period the buyer will lodge a copy of any scanning report with the seller and the Society. If the buyer disputes this report the matter will be referred to the Disputes and Disciplinary Committee. The Society reserves the right to extend these periods to facilitate scanning of ewes to determine pregnancy and/or taking samples to carry out parentage tests. Any fees or charges in relation to parentage tests will be paid by the buyer.
- 17.6** The decision of the Disputes and Disciplinary Committee shall be final and binding on all parties to the dispute and Council has the power to ensure that the Committee's decision is implemented.
- 17.7** The buyer shall at the expense of the seller do all acts, deeds and things necessary to enable the second test to be carried out. If the animal shall be deemed fertile the buyer shall on demand repay the seller the veterinary surgeon fees of the second test and Report.
- 17.8** If the ram is deemed incapable of natural and effective service during 4 calendar months from date of purchase, the buyer may by 30th November of the year of the Sale return the animal to the seller and thereupon the seller shall repay to the buyer the whole of the purchase price and the cost of transport of the animal from the buyer's premises to the seller's premises and the veterinary surgeon testing fees incurred by the buyer.
- 17.9** The seller shall not be liable for any indirect or consequential loss howsoever sustained by a buyer.
- 17.10** As to clauses 17.4 and 17.5 and 17.8 time is of the essence.
- 17.11** The seller and the buyer may vary the provisions of clauses 17.4, 17.5, 17.8, 17.9 and/or 17.10 if but only if and insofar as the variation is set out in writing and signed by each of the parties and a copy sent to the Society.
- 17.12** The terms of any statutory enactment or custom or trade which are inconsistent with the provisions of this Bye-Law 17 are hereby excluded.
- 17.13** Failure to comply with any of Bye Law 17 will allow the Society, at its discretion, to cancel Society membership.
- 17.14** Society Bye-Laws do not exempt a breeder from the Sale and Supply of Goods Act.

E&OE

FOR THE ATTENTION OF ALL VENDORS AT SOCIETY SALES

To protect the integrity of the breed it is important that sheep presented at Society events represent the best the Suffolk can offer. With this in mind members' attention is drawn to the following:

1. **ARTIFICIAL COLOURING** - No artificial colouring of hair on heads/legs, dressing, bleaching or chemical agent (except Department of Environment, Fisheries and Rural Affairs' approved and recognised show dip and colourless oil on the head) shall be used on or applied to sheep entered in this show/sale. In the event that any sheep is found by the Inspectors or veterinary surgeons to have been artificially coloured, the owner shall upon being so required by the stewards forthwith remove such sheep and all other sheep in the same consignment from the Society Sale and the sale ground and the breeder will be banned from entry into any Society Sale or Society Show held during the next calendar year.
2. **HAIR SAMPLES** - Hair samples will be taken from each pen by the veterinary surgeon(s). A number of these will be selected at random at a later date and tested under clinical conditions for non-approved artificial colouring. Where found, the breeder will be notified in writing of the findings and banned from entry into any Society Sale or Society Show held during the next calendar year.
3. **INCORRECT MOUTHS/TESTES** - The veterinary surgeons will, without limitation, inspect for correct mouths and, in the case of rams, testes. Any sheep which is not approved by the Inspectors and/or veterinary surgeons shall upon being so required by the stewards forthwith remove such sheep and shall not be entered at any other Society sale and cannot be registered with the Society. The decisions of the Inspectors and veterinary surgeons on all such matters are and shall be final and binding, and (in the absence of bad faith) without any responsibility or liability on their part.

PLEASE NOTE: There will be no appeal to these decisions on the day
