TH

# ANNIVERSARY PREMIER SHOW & SALE

ROSCOMMON MART

Saturday 4<sup>th</sup> September 2021

Show Judging at 11am | Sale commences at 1.30pm

This Sale is fully endorsed by the Suffolk Sheep Society Ltd – South of Ireland Branch

# LAMLAC®

Number 1 for 50 years

*We understand  
what it takes  
to rear  
**strong  
healthy  
lambs***

As pioneers in the development and manufacture of high-performance milk formulas, Volac created the first instantised milk replacer for lambs: Lamlac®.

For over 50 years we have taken our passion for animal nutrition and continued to research formulation and processing developments, ensuring Lamlac® remains the number one selling formula.

**We understand, we've done the science.**

**[lamlac.co.uk](http://lamlac.co.uk)**

# ELITE LAMB PELLETS

Pat O'Brien, Headford, Co. Galway farms 330 suffolk/ mule cross ewes lambing in February and March and 40 spring calving suckler cows.

*"I find the Elite Lamb Pellets very good; lambs get onto it very quickly and intakes are very good but more importantly the weight gains and kill-outs are there to match it. We slaughtered our first batch of lambs as young as 10-11 weeks this year and they weighed 42-45kg and killed out over 50% dead weight. I'm very happy to date with this product and I certainly can't see us changing off it any time soon."*

Cheryl O'Brien runs both a pedigree and commercial flock of ewes in Springvale, Kildorrery, Co. Cork. The flock is a 50:50 split consisting of 60 pedigree Vendeen ewes and 60 commercial ewes mainly of Vendeen/Texel breeding.

*"I first started using Grennan's Elite Lamb Pellets in 2015. I'm using it ever since and I am very happy with the performance of my lambs. I find it very easy to transition from the creep to Elite Lamb Pellets as they are extremely palatable and the lambs really thrive. I will certainly continue to use this product as I find it gives good lamb performance and extremely good factory kill-out."*

**Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.**

## Sheep Ireland EuroStars

### How to select a ram fit for purpose?

Sheep Ireland  
www.sheep.ie

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes.

## €uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals can not be compared to any other animals from a different flock.

### Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 11% (see example below)
- This is displayed with the black pointer, the further to the right these are on the scale, the better its position with the breed.

## Acc % (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc is low, much less emphasis should be placed on the evaluation, and vice versa.
- This is displayed with the grey pointer, the further to the right these are on the scale, the more information this evaluation is based on. e.g. Acc 43% (see example on previous page)

### Acc % parameters

**V.Poor**, 0% - 14%    **Poor**, 15% - 24%

**Fair**, 25% - 34%    **Good**, 35% - 49%

**V.Good**, 50% and above

## Indexes & Traits

- 1) Replacement (€1.126)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 2) Terminal (€0.542)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

### RamSearch.ie

The Sheep Ireland Online Ram search is also available at [ramsearch.ie](http://ramsearch.ie), you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.

## DISPUTES

1. All disputes of differences of any kind which arise at or in relation to the auction either between the vendor and the purchaser or amongst bidders themselves shall be referred to the auctioneer and his decision shall be final and binding on all parties.
2. Any other dispute shall be referred to an arbitrator who shall be appointed, failing agreement between the parties, by the Society and the decision of the arbitrator shall be final and binding on all parties to the dispute. Any arbitration under this clause shall be subject to the Arbitration Acts for the time being in force.

## CONDITIONS OF SHOW OR SALE

- 1 Each item must be bona fide the property of the exhibitor.
2. The highest bidder to the buyer, and if any dispute arises between the bidders, the decision of the Auctioneer shall be final, or at his discretion the lot in dispute shall immediately be put up again and re-sold. The Auctioneer reserves the right of refusing the bid of any person and regulates the bidding, and no bidding is to be retracted.
3. The purchasers to give their names and places of abode in writing and pay the full purchase money for each lot at the fall of the hammer (if required); in default of which the lot or lots so purchased may immediately be put up again and re-sold.
4. No lot or lots shall be removed from the premises before the sale, or till paid for, but each and every lot shall, immediately at the fall of the hammer, be considered as delivered, and be and remain in every respect at the absolute risk of the respective purchasers thereof, and shall be removed from the place of sale at the purchaser's expense.
- 5 If any purchaser shall fail to comply with the above conditions, or any part of them, the Auctioneers shall be at liberty either to recover in full the amount of the lot or lots bought by such purchaser, without reference to any delivery or acceptance of the lot or lots other than first delivery by the fall of the hammer, or to re-sell any lot or lots bought by the purchasers, either by public or private sale; and the full amount of the purchase money at the present sale, or the deficiency (if any) arising from such second sale, shall be made good by the defaulter at the present sale, and be recoverable as and for liquidated damages.
6. No money will be paid to the proprietor for any lot sold, unless the account be cleared by the purchaser, and the Auctioneers will not be answerable for any deficiency that may arise on the re-sale of any uncleared property.
7. Animals are present on the sole responsibility of owners, whose duty it is to keep each exhibit under proper control at all times, whether in pen or in show or sale rings, or in transit within the centre. Neither the Auctioneers, the organisers nor the Sponsors, nor any of their officials or employees will be liable for damage or injury caused by any animal's behaviour, including overnight.
8. Purchasers are to understand that, although every reasonable precaution will be taken to ensure the safety and welfare of the animals exhibited, the Auctioneers will not be reasonable for loss, or accidents of any kind, that may occur. Nor will the Auctioneers or vendors be accountable for any accident that may occur to any person attending the sale, whether as a visitor, or in any other capacity.
9. The pedigree, history and description of each animal is guaranteed by the owner, and no liability whatsoever is undertaken by the Auctioneers for the statements in the catalogue or announcements made at time of sale. The vendor who supplies such statements is alone responsible.
10. No undertaking of the Auctioneers or vendors or their servants to take charge of the lots or animals for sale, or to forward them to their destination, shall be held to impose any legal obligation or vitiate any of the foregoing conditions.
11. Any Medical Treatment to any animals must be advised by the Auctioneer for announcement at time of sale. The presence of any chemical or pharmaceutical substance in or on an animal or in its milk during the withdrawal period may render its sale void.
12. Should any question arise not provided for in the foregoing conditions, the decision of the Auctioneers shall be final, from which there shall be no appeal.
13. Neither the Auctioneers nor the sponsors incur liability of the return of Auction Fees where a claim is made for return of purchase price of any lot sold at the sale.
14. The sale will be conducted in Guineas. Purchasers will pay VAT on Fees.

15. After Sale release of livestock or goods is by Pass Out issued by the Sale Office. This also includes unsold lots.
16. Each and every lot must be presented for sale in the auction ring in catalogue or numerical order. No Sale may be contemplated before such presentation. Lots not sold in the auction or present for demonstration purposes and subsequently sold privately on the premises must be recorded through the auctioneer's office and are subject to commission.
17. No electrical device may be connected to any socket in the show or sale premises unless it is fitted with an approved circuit breaking control. All equipment must be in up to date state of safety. Note: Sockets on sale rostrum are not suitable for blow driers.
18. Neither the Auctioneers, the Organisers, nor the Sponsors shall incur any liability for loss or inconvenience arising from postponement or cancellation of the event.

**NOTE:** No animal is considered to be delivered to the Show and Sale until placed in the pen or place of tying allotted. Access doors will permit vehicles and trailers to enter the building for loading or unloading. Delivery to purchaser will also be effected when the purchaser removes the animal from the pen, or otherwise takes charge of the animal. Under no circumstances may any animal be taken out of the building for loading. The trailer or lorry must be backed inside the doorway and the screen doors closed the vehicle.

Please remember to collect your Movement Permit before leaving. And please remember that a new purchase should be introduced to company when taken home – and not placed in solitary confinement on arrival in strange surroundings after transport!

**N.B:** All stock must be paid for on day of sale. Cheque facilities are only for approved customers:- otherwise payment must be made by debit card, credit card or cash.

### (493) Golden Lamb Crunch

- ✓ Hi-Spec ration
- ✓ Designed as a (creep) starter
- ✓ Used in early lamb or pedigree production systems
- ✓ Enhanced texture with all fine products incorporated into a 3MM concentrate pellet
- ✓ High inclusion of **Toasted Maize, Toasted Barley and Toasted Peas**

### (90) Intensive Lamb Pellets

- ✓ Used to finish all types of lambs and cull ewes or rams
- ✓ Can be fed indoors or outdoors
- ✓ Contains high levels of **Maize, Barley and Soya**
- ✓ Contains calcium chloride to prevent urinary calculi

### (93) Lamb Rearear/Finisher Pellet

- ✓ Ideal for a system where grass cover is good
- ✓ Contains high levels of **Maize and Barley** with reduced protein for finishing lambs
- ✓ Contains calcium chloride to prevent urinary calculi
- ✓ Contains **Soya**

- ✓ Protein is made up of highly digestible **Soya and Peas**
- ✓ Includes a highly palatable form of molasses to stimulate high intakes
- ✓ Contains **Actival Live Yeast** to improve feed efficiency and production performance
- ✓ Contains **Chelated Minerals** to ensure maximum weight gain
- ✓ Contains our **Total Hard Care Pack**

### (499) Intensive Lamb Blend

- ✓ Used to finish all types of lambs and cull ewes or rams
- ✓ Contains **high levels of Maize, Barley and Soya**
- ✓ Contains calcium chloride to prevent urinary calculi

### (96) 20% Super Ewe Pellet

- ✓ Top Spec Feed
- ✓ Feed Pre/Post lambing to give maximum milk yield
- ✓ **Maize and Soya** – Main ingredients
- ✓ Suitable for sheep with a **high lambing percentage**

### (95) Superlac 19% Ewe & Lamb Pellet

- ✓ Feed **3 weeks pre-lambing and post lambing** to give maximum milk yield
- ✓ Used where forage is of medium to good quality
- ✓ Used for sheep with a high lambing percentage
- ✓ Very **high energy** level and contains highly digestible proteins
- ✓ High soya level to maximise colostrum quality and milk production
- ✓ Contains Calcined Magnesite to help prevent grass tetany

### (97) Supreme 18% Ewe & Lamb Pellet

- ✓ Popular ration
- ✓ Contains **Maize** as an energy source
- ✓ Suitable where there are a lot "Singles" present
- ✓ Suitable where good quality forage is available
- ✓ Suitable for ewes who are close to turnout to good pasture later on in the season
- ✓ Contains Calcined Magnesite to help prevent grass tetany

### (98) 18% Ewe COBS

- ✓ **Feed Pre/Post lambing** to give maximum milk yield
- ✓ Suitable to be **fed directly on grass or straw without the need for troughs**
- ✓ 12 mm COB
- ✓ Ensure healthy viable lambs, which are quick to nurse

- ✓ Provide sufficient colostrum production
- ✓ Requires very little usage of farm buildings
- ✓ Cereals and highly digestible fibre sources make up the majority of energy
- ✓ Contains Calcined Magnesite to help prevent grass tetany
