# €uroStar Evaluation Explanation Page

**Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.**

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes. See below how to interpret the €uroStar catalogue.

## ★★★★★ €uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

## Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 16% (see example below)
- This is displayed with a shaded line, the further to the right these are on the scale, the better its position within the breed.

## Acc% (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa.
- Accuracy is displayed for the Replacement & Terminal Indices. It is not displayed for the four sub-traits. If an animal has high accuracy on Replacement & Terminal, it will be high accuracy across all traits.

### Acc% parameters

**V.Poor**, 0% - 19% **Poor**, 20% - 34%  
**Fair**, 35% - 44% **Good**, 45% - 59%  
**V.Good**, 60% and above

- 1) Replacement (€3.44)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.
- 2) Terminal (€2.86)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

## RamSearch.ie

The Sheep Ireland Online Ram search is also available at [ramsearch.ie](http://ramsearch.ie), you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.

### Contact Us

Find out more about EuroStar rams, LambPlus or the Online Ram search you can visit [www.sheep.ie](http://www.sheep.ie), E-mail [query@sheep.ie](mailto:query@sheep.ie), or Call us on **023 882 0451**

## CONDITIONS OF SALE

1. Without prejudice to the foregoing rules it is hereby expressly declared that the seller by selling & the buyer by purchasing shall be bound by the rules notwithstanding the terms of any statutory enactment or custom or trade to the contrary.
2. The auctioneer is the judge of the sale to whom all disputes or differences of any kind which may arise at or in relation to the auction either between the seller and the buyer or amongst the bidders themselves shall be referred and his decision shall be final and binding on all parties.
3. Any disputes as to any matter of the settlement of which no provision was made in these rules shall be referred to an arbitrator to be appointed failing agreement between or amongst the parties by the auctioneers and the decision of the arbitrator so appointed shall be final and binding on all parties to the dispute. Any arbitrator under this clause shall be subject to the Arbitration Act for the time being in force.
4. The highest bidder to be the purchaser, subject to the rule 7, and if any dispute shall arise between two bidders, the lot in dispute to be put up again and re-sold or the auctioneers may declare the purchaser.
5. Purchasers to give their name and place of abode and payment in full, immediately upon the fall of the hammer if required.
6. All lots to be cleared away at the buyer's expense at the close of sale, to be risk of the purchaser from the time the lot is sold and to be taken with all faults and errors of description.
7. Purchasers at this sale, not complying with the above conditions, will be subject, without further notice, to have their lots re-sold, either by public auction or by private contract. The deposit money will be forfeited and any deficiency, with all expenses attending such re-sale to be made good by the defaulters on demand.
8. Rams and ewes to be sold in euros plus 5% commission. No shearling ram or ram lamb to be sold for less than €350. No bid under €10.
9. Any sheep having artificially blackened heads and/or legs will be disqualified.
10. Any sheep found to have a positive blood test for prohibitive substances will be disqualified and dealt with by disciplinary committee.
11. All sheep will be sold in order in which they appear in the catalogue.
12. A red dot must be clearly marked on the shoulder of all substitute sheep.
13. All lots are "on the market" from the first bid. When the auctioneer's hammer falls, the vendor may accept or refuse the final bid. A vendor must say "yes" or "no" to the final bid before leaving the ring. If the vendor does not respond on the fall of the hammer this will be regarded as a "yes" and that animal will be taken as sold. No change from this will be entertained.

## RAM FERTILITY GUARANTEE

### **1 MALE FERTILITY GUARANTEE**

- 1.1** All rams and ram lambs sold at a Society sale are warranted by the seller to be capable of natural and effective service up to 30th November of the year of the sale of the Sale ("the Male Guarantee Period") provided always that:
  - 1.1.1** any animal which is not so capable and where the incapacity is caused or contributed to by injury or illness howsoever caused, suffered or contracted after the sale is not covered by the warranty; and
  - 1.1.2** any animal which has not been conclusively determined as incapable of natural and effective service in accordance with the procedure set out hereinafter and which dies of natural causes during the Male Guarantee Period is not covered by the warranty.
- 1.2** An animal shall be deemed incapable of natural and effective service if:
  - 1.2.1** It fails to make at least one ewe pregnant during the Male Guarantee Period under natural breeding conditions; and
  - 1.2.2** it is certified as being so incapable by a veterinary surgeon in accordance with clauses 1.4 and 1.5 below. "Natural breeding conditions" means when a ram is run with ewes in normal breeding condition, cycling without artificial interference. Ewes which have been sponged and/or treated with hormones to induce or synchronise ovulation are deemed not to be in normal breeding condition.
- 1.3** The buyer shall throughout the Male Guarantee Period give the animal full and sufficient opportunity to prove that he is capable of natural and effective service and maintain him in a fit condition.
- 1.4** If the buyer highlights that the ram or ram lamb has failed to prove capable of natural and effective service by 2 calendar months from sale date of the year of sale, the buyer shall then:
  - 1.4.1** Notify the seller and the Society in writing that the animal is to be tested; and
  - 1.4.2** Have the animal subjected to a semen test by the artificial vagina method by a veterinary surgeon attached to a breeding company authorised by the Society; and
  - 1.4.3** Obtain from the veterinary surgeon a duly completed Soundness for Breeding report; and
  - 1.4.4** If the veterinary surgeon certifies that the animal is incapable of natural and effective service, lodge a copy of the Report with the seller and the Society.
- 1.5** The seller shall be entitled to:
  - 1.5.1** Have a second test carried out by the same or a different veterinary surgeon attached to a breeding company authorised by the Society who shall issue a Soundness for Breeding report after notification by the purchaser and such Report shall conclusively determine whether or not the animal is capable of natural and effective service. The seller shall deliver to the buyer and the Society a copy of this second Report; or
  - 1.5.2** Arrange to take possession of the ram or ram lamb for up to two calendar months from the date of the duly completed Soundness for Breeding Report provided by the Buyer to determine whether or not the animal is capable of natural and effective service. If the ram or ram lamb makes at least one ewe pregnant during the Male Guarantee Period the seller will lodge a copy of any scanning report with the buyer and the Society. If the buyer disputes this report the matter will be referred to the Committee. The Society reserves the right to extend these periods to facilitate scanning of ewes to determine pregnancy and/or taking samples to carry out proof of parentage tests (DNA samples of Sire and Progeny), and to take any measures it considers to be necessary to resolve the matter. Any fees or charges in relation to parentage tests will be paid by the buyer.
- 1.6** The decision of the Committee shall be final and binding on all parties to the dispute and has the power to ensure that the decision is implemented.
- 1.7** The buyer shall at the expense of the seller do all acts, deeds and things necessary to enable the second test to be carried out. If the animal shall be deemed fertile the buyer shall on demand repay the seller the veterinary surgeon fees of the second test and Report.
- 1.8** If the ram is deemed incapable of natural and effective service the buyer may by 30th November of the year of the Sale return the animal to the seller and thereupon the seller shall repay to the buyer the whole of the purchase price and the cost of transport of the animal from the buyer's premises to the seller's premises and the veterinary surgeon testing fees incurred by the buyer.
- 1.9** The seller shall not be liable for any indirect or consequential loss howsoever sustained by a buyer.
- 1.10** As to clauses 1.4 and 1.5 and 1.8 time is of the essence.
- 1.11** The seller and the buyer may vary the provisions of clauses 1.4, 1.5, 1.8, 1.9 and/or 1.10 if but only if and insofar as the variation is set out in writing and signed by each of the parties and a copy sent to the Society.
- 1.12** The terms of any statutory enactment or custom or trade which are inconsistent with the provisions of this Guarantee are hereby excluded.
- 1.13** Failure to comply with any of this Guarantee will allow the Society, at its discretion, to cancel Society membership.
- 1.14** This Guarantee does not exempt a breeder from the Sale of Goods and Supply of Services Act 1980.
