SUFFOLK SHOW & SALE

Raphoe Livestock Mart – F93 KH22

Saturday 3rd September 2022

Show 10am Sale 12 noon

On-line bidding with Donegal Suffolks MartBids

Premier Sale Champion 2021

Zootechnical certs accompany all sheep.

SALE CONDITIONS

1. The stock will be sold in the order in which they appear in the catalogue and the highest bidder on each lot on the fall of the hammer will be declared the purchaser. If any dispute shall arise between two or more bidders then the lot in dispute will be put up again and resold, or the purchaser may be declared by the auctioneer.
2. The pedigree and description of the lots are believed to be correct but are not intended as a warranty and therefore shall be taken with all faults and error of description.
3. All animals are at the risk of the vendor before sale and the purchaser after the sale. The auctioneer accepts no responsibility for damage or injury caused to the animal in the sales yard or in its precinct thereof.
4. The minimum sale price is €350gns.
5. All lots will be sold in euro. Purchaser will be charged a fee of 5% of sale price.
6. Purchasers shall, if and when required, give their name and address to the auctioneer and shall if required, pay to the auctioneer the purchase money for each lot at the fall of the hammer, or so soon thereafter as the auctioneer may require.
7. Purchaser paying by cheque must be prepared, if required, to produce banker's reference.
8. No lots shall be removed from the sale premises until a written delivery order has been given by or on behalf of the auctioneers.
9. Each lot shall, at the purchaser's expense, be removed from the sale premises within a reasonable time after the close of the day's sale.
10. All statement in the catalogue or made by the auctioneer at the time of sale relating to the animal are believed to be correct. No sale shall be invalidated by reason of any defect of faults in any of the animals by reason of any of the animals being incorrectly described in the catalogue, or by the auctioneer in the ring, and no compensation shall be paid inn respect of any faults or errors of description.

VENDORS

Lot	Vendor

Future Sales of Donegal Suffolk Sheep Breeders association

30th September Evening Show & Sale
Show at 6pm, sale at 7.30pm

21st October Evening Show & Sale
Show at 6pm, Sale at 7.30

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes. See below how to interpret the €uroStar catalogue.

Animal ID: (Name, Pedigree ID, NSIS): Lot 3: TULLY TANK HEF21.1585, IE041234503204B

Animal Details: (DOB, Breed, Sex & Birth Rank): DOB: 04-MAR-2021 • Charollais • Male • Twin

Parentage DNA Verified: The parentage of this sheep has been confirmed to be accurate using DNA

M & F Scanned: This flock has been visited by Sheep Ireland and lambs have been weighed and scanned for Muscle & Back Fat

Animal breeder & owner details: Breeder & Owner: John Farmer • Castletroy, Tully, Co. Waterford • DQI: 91%

Scrapie: Scrapie: Type 1

Flock DQI: Data Quality Index scores flocks on their data recording. Data completeness & timeliness are two criteria

Scrapie: This indicates the level of scrapie resistance based on the animals genotype. This scrapie result is not DAFM approved for export unless the animal is fully parentage verified

Commercial Data: This animals genetic evaluation contains commercial farm data collected through Sheep Ireland/Teagasc projects

Genotyped: This animal has been genotyped via Sheep Ireland

★★★★★ €uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

Rank

- This figure indicates more precisely where the animals rank within the breed. eg. Top 16% (see example below)
- This is displayed with a shaded line, the further to the right these are on the scale, the better its position within the breed.

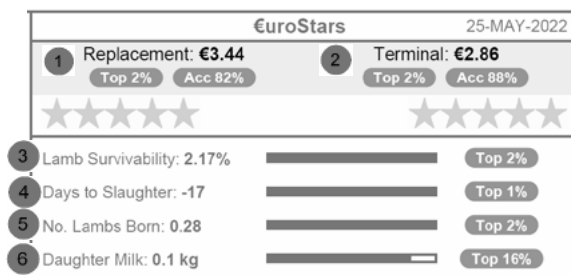

Acc% (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa.
- Accuracy is displayed for the Replacement & Terminal Indices. It is not displayed for the four sub-traits. If an animal has high accuracy on Replacement & Terminal, it will be high accuracy across all traits.

Ancestry Information

- 1) Replacement (€3.44)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.
- 2) Terminal (€2.86)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

RamSearch.ie

The Sheep Ireland Online Ram search is also available at ramsearch.ie, you can use this tool to get the most up to date evaluations for a ram, to **search for rams by county, breed and current evaluation ratings**.

Contact Us

Find out more about EuroStar rams, LambPlus or the Online Ram search you can visit www.sheep.ie, E-mail query@sheep.ie, or Call us on **023 882 0451**
