PIETA HOUSE

Pieta House provides a professional one-to-one therapeutic service to people who are in suicide distress, those who engage in self-harm and those bereaved by suicide. All of these services are provided free of charge and no referral is needed.

I've made great friends in my time breeding Suffolks but it has made me aware of the hard times some of these friends have gone through.

Therefore I've decided to donate all proceeds from the sale of PXL:20:00519 to Pieta House Suicide Prevention in the hope that someday it might help out somebody who needs somebody to talk to.

PXL:20:00519 scanned with a one lamb to Limestone Gold Rush, Reserve Champion in Sterling 2019.

This ewe comes with massive back breeding stretching back to Stratisla Speed, AK Magic and a Bailey's ewe that we bought and which became one of the bedrock breeders of our flock.

Her lamb PXL:22:00617 is also in the sale.

Hopefully she will be lucky for someone, and that she goes some way to helping out Pieta House.

BEECHBROOK SUFFOLKS

The Beechbrook flock was established in 2011 with the purchase of a small number of good quality breeding ewes from long established flocks. Since then the flock has gone from strength to strength with the purchase of good breeding stock from some of the country's best flocks including Lakeview, Annakisha, Baileys, Mountford, Kells, Kilmacoo and Castleisle/Shannagh. This along with the use of top rams through AI and purchased rams has seen the flock achieving success at many shows and sales. Success in the Flock Competitions in 2019 sparked interest in Europe and gimmers and lambs have been sold to France, Belgium and the Netherlands where they have bred well. This year the flock achieved great success in the Premier Sale in Blessington with ram lamb Beechbrook Axel coming second in the Novice Class and selling for €5200 to Alistair Barkley, Beechbrook Andy winning the Recorded Class and **PXL:22:00629** winning Female Champion of the show.

Our main breeding ram for last year was **Limestone Gold Rush** with **Kilmacoo Challenger** (Sire Strathisla Speed and GD Lakeview JFF:L41) also featuring strongly. You can see the success of this breeding strategy in the strength of 2022 lambs in sale here today.

My time as a Suffolk breeder has been an extremely rewarding experience – from working with the sheep and also from the many friends made over the past 11 years. I want to thank everybody for their advice, help and support. In particular I want to thank Ian Donald for his friendship and advice and for all his help in preparing for today's sale. Also I have to thank Matt, my right hand man who has become an enthusiastic stockman. A big thanks also to my family and in particular Jonathan for their help, support and patience since my hobby became a full-time job!!.

Thank you also to all my customers and I wish everyone the best of luck for the coming season and beyond.

€uroStar Evaluation Explanation Page

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes. See below how to interpret the €uroStar catalogue.

★★★★★ €uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

Rank

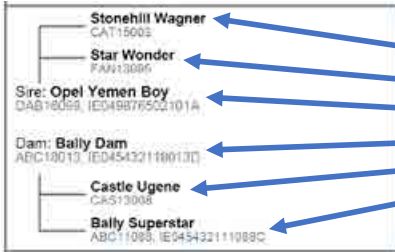

- This figure indicates more precisely where the animals rank within the breed. eg. Top 16% (see example below)
- This is displayed with a shaded line, the further to the right these are on the scale, the better its position within the breed.

Acc% (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa.
- Accuracy is displayed for the Replacement & Terminal Indices. It is not displayed for the four sub-traits. If an animal has high accuracy on Replacement & Terminal, it will be high accuracy across all traits.

Fair, 35% - 44% **Good**, 45% - 59%
V.Good, 60% and above

- 1) Replacement (€3.44)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.
- 2) Terminal (€2.86)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.
- 3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.
- 4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.
- 5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.
- 6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

AUCTIONEER'S CONDITIONS OF SALE

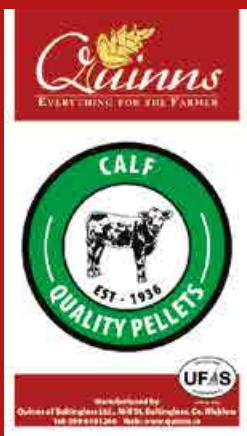

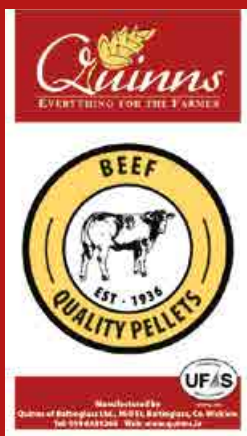

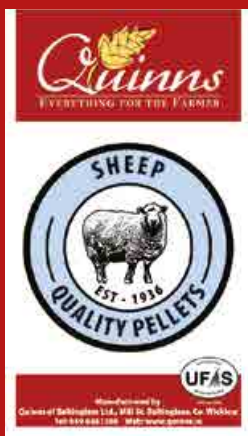

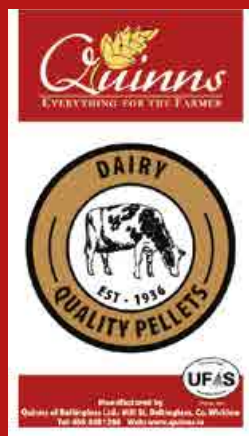

1. The stock will be exposed according to the lots and numbers in the following catalogue and the highest offer on each lot will be preferred to the purchaser.
2. The pedigree and description of the lots are believed to be correct, but are not intended as a warranty and therefore shall be taken with all the faults and errors of description.
3. All animals are at the risk of the vendor before sale and at the risk of the purchaser after the sale.
4. The service dates, while believed to be correct, cannot however, be guaranteed.
5. The auctioneer reserves the right to accept bids from a vendor and they reserve on behalf of themselves and of the vendor the following rights:
 - a) To bid on behalf of a vendor
 - c) To rearrange, consolidate or withdraw any lots or vary the order of sale and
 - d) Without giving any reason therefore, to refuse to accept the bids of any person.
6. All sheep will be sold in euro gns (€)
7. The person making the highest accepted bid shall be the purchaser
8. No bid shall be retracted
9. If a dispute arises as to any bidding, then at the discretion of the Auctioneer, either:
 - a) The lot to which the disputed bid relates shall immediately be put up again,
 - or
 - b) The auctioneer shall determine the dispute, and their decision shall be final and binding on all parties.

The purchaser shall, if and when required, give his name and address to the Auctioneers, and shall if required, pay to the Auctioneers the purchase money for each lot at the fall of the hammer, or so soon thereafter as the Auctioneer may require.
10. Purchasers paying by cheque must be prepared, if required, to produce a bankers reference.
11. No lots shall be removed from the sale premises until a written delivery order has been given by or on behalf of the Auctioneers.
12. Each lot shall, at the purchaser's expense, be removed from the sale premises within a reasonable time after the close of sale.
13. All statements in the catalogue or made by the auctioneer at the time of sale relating to any animal are believed to be correct. No sale shall be invalidated by reason of any defect or faults in any of the animals by reason of any of the animals being incorrectly described in the catalogue, or by the Auctioneer in the ring, and no compensation whatever shall be paid in respect of any faults or errors of description.
14. All shearlings and ewes are sold as having being scanned in lamb unless otherwise stated.
15. All animals are sold as they stand, the Purchaser is deemed to have examined each animal and fully satisfied himself about the animal prior to sale.
16. All Suffolk's in this sale are fully registered and eligible for immediate transfer to any Suffolk flock. Registration certificates will be given with all purchases.
17. The Beechbrook flock is a dispersal sale. The pedigree and description of each lots and all information as to service sire dates and health are believed to be correct and so will be sold under dispersal rules hence, no warranties are implied or given.
